

Fast-action carpet shampoo for injection extraction cleaning

GENERAL ASPECTS:

M200D is a powerful, fast action detergent with a low-foam and moderately alkaline formula. It is specifically developed for cleaning carpets and rugs with an injection extraction machine. M200D deep cleans, enhances colours and fills the air with a pleasant, long-lasting smell of fresh cleanliness.

M200D does not form deposit in the extraction machine; does not leave any residue on the carpet which might attract more dirt.

M200D is a powerful remover of any kind of soil and dries quickly so can be used for fast cleaning with the "Bonnet Cleaning" system.

APPLICATION FIELDS

M200D is perfect for cleaning all upholstery in synthetic fibre as well as carpets and rugs.

INSTRUCTIONS FOR USE

INJECTION/ EXTRACTION MACHINE:

Clean the carpet with a vacuum cleaner. To ensure colour fastness, try out the product on test on a hidden portion before full use.

Pre-treat the carpet by spraying a solution of 1:3 –1:4 of M203 in water onto the dirtiest parts.

Dilute 300 ml. of M200D in 10 litres of water. Spray the solution without over wetting the carpet. Vacuum the carpet with the carpet cleaner machine and rinse.

"BONNET CLEANING" :

This method is fast and avoids having to wet the carpet excessively.

Spray a solution of water with 10% M200D onto the carpet.

Pass a low speed single disc machine fitted with damp Bonnet pad.

The "BONNET CLEANING" system has several advantages:

The area is ready for re-use in a short time.

It keeps the carpet clean between sessions of heavy duty cleaning with an injection / extraction machine.

It reduces the amount of heavy duty cleaning needed, saving time and energy.

Use with care on woollen carpets, carpets with jute backing, and on both fabric and non fabric carpets posed on wood.

COMPOSITION

ACTIVE INGREDIENTS	Anionic and non ionic surfactants, alkaline agents, water-soluble solvents, equestering agents, optical brighteners, scents
APPEARANCE	Transparent yellow liquid
PERFUME	Flower- scented
DENSITY	0.98
ACTIVE	18%
PH pure	12 ± 0,5
WATER SOLUBILITY	Complete
BIODEGRADABILITY	all surface-active agents meet the requirements of aerobic biodegradability set out in Annex III of Regulation (EC) No 648/2004

TYPE OF DANGER AND CAUTION ADVICE

The product is not to be considered dangerous

FURTHER INFORMATION

ONLY FOR PROFESSIONAL USE .

PACKING

MN200 is available in cartons with 12 bottles plastic of 1 lt.
