Hi-cleaning Solutions

| HYDROSOLUBLE CAPSULES EASY TO USE AND PREPARE |

From SUTTER PROFESSIONAL,
the WATER-SOLUBLE capsule line
with ECOLABEL certification
for the professional market.

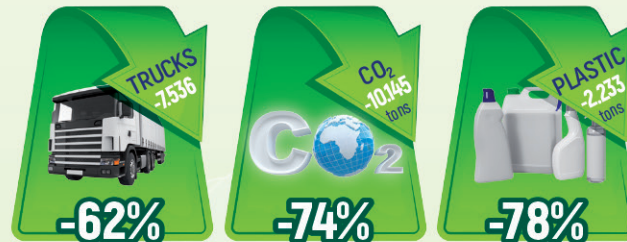

ECOCAPS is a leader in environment protection...

It contributes to packaging and transportation reduction.

A range of products for the cleaning
of all surfaces aimed at cost control.

Environmental advantages if all the professional market was ECOCAPS
(Sutter Professional version from Afidamp source)

...in a simple and ecological way

with ECOLABEL IT/020/009 certification

Sutter Professional
has always offered
state-of-the-art products
as far as environment protection,
sustainable development
and manufacturing
are concerned.
Our vision implies
a development which
combines product performance
and environment
and user respect.

ecocaps[®]

| EASY |

Easy to dose system: each capsule contains the exact amount of product you require.

| CHEAP |

It reduces storage room and costs.
It also reduces staff training times since it is very easy to use.
Total cost control with waste prevention.

| ECOLOGICAL |

It is environment-friendly: the packaging completely dissolves into water so no remains need to be disposed of. The spray case can be re-used many times, thus reducing plastic consumption and disposal. The bag containing the capsules does not come into contact with the cleanser and can be easily recycled.

| PRACTICAL |

Bottle, bucket or washer-drier: the capsule dissolves quickly and the solution is ready to be used directly on the surface to be cleaned.

| SAFE |

It prevents over-dosing risks and damaging of floors and surfaces. The right product use is indicated on the label.
No risks of direct contact with the concentrated product for the user.

| QUICK |

Water weight is eliminated from transportation. The product concentration strongly reduces transportation weight.
